FACT BOOK 2017-2018

Office of Planning and Institutional Effectiveness

Mission Statement

Marywood University, sponsored by the Congregation of the Sisters, Servants of the Immaculate Heart of Mary, roots itself in the Catholic intellectual tradition, the principle of justice, and the belief that education empowers people. The University integrates an enduring liberal arts tradition and professional disciplines to create a comprehensive learning experience. Our undergraduate and graduate programs promote academic excellence, advance innovative scholarship, and foster leadership in service to others. Within a welcoming and supportive community, Marywood challenges individuals of all backgrounds to achieve their full potential and make choices based on spiritual and ethical values. Marywood University prepares students to seek sustainable solutions for the common good and educates global citizens to live responsibly in an interdependent world.

MEMORANDUM

TO: Marywood University Colleagues

FROM: Dr. Kathleen Ruthkosky
Associate VP for Planning and Institutional Effectiveness

RE: Fact Book 2017-2018

DATE: February 1, 2018

The Marywood University *Fact Book 2017-2018*, twenty-third edition, presents concise tables of data counts and trends on students, personnel, finances and facilities. Where appropriate, the 2017-2018 Fact Book presents information according to the new college structure. Input is submitted by many campus departments and units and then assembled and published by the Office of Planning and Institutional Effectiveness. Sincere thanks to our campus colleagues for their assistance.

The *Fact Book* is available for download and printing and is available to the public. To access the *Fact Book* go to the Marywood University Office of Planning and Institutional Effectiveness web page at marywood.edu/instresearch/factbook. Footnotes on selected pages clarify important institutional changes.

We welcome your comments and suggestions for producing a *Fact Book* with the most timely and useful information possible for the entire campus. The contact person in the Office of Planning and Institutional Effectiveness for questions and comments on the *Fact Book 2017-2018* is Dr. Ruthkosky, who may be reached at ruthkosky@marywood.edu or 570-348-6203.

ATHLETICS AND RECREATION

Intercollegiate teams are sponsored in twenty sports with Women's and Men's Rugby being added in 2018-19. The university is a member of the National Collegiate Athletic Association (NCAA) Division III, the Colonial States Athletic Conference (CSAC)*, the Eastern College Athletic Conference (ECAC) and the Landmark Conference. Eleven sports are offered for women and nine for men:

Women	Men
Basketball	Baseball
Cross Country	Basketball
Field Hockey	Cross Country
Lacrosse	Golf
Soccer	Lacrosse
Softball	Soccer
Swimming/Diving	Swimming/Diving
Tennis	Tennis
Track and Field (Outdoor)	Track and Field (Outdoor)
Women's Golf	
Volleyball	

A selection of intramural and club sports also is available. Club sports have included: climbing, dance team, cheerleading and men's volleyball among others. A wide range of activities are offered through the intramural sports program. Traditional team activities such as basketball, volleyball, flag football, tennis and softball are available in addition to innovative programs like ultimate Frisbee and kickboard water polo. Recreation programs include land and water aerobics classes and fitness challenges.

The Center for Athletics and Wellness is a state-of-the-art facility with a fitness center, climbing wall, an elevated running track, a dance/aerobics studio, a 1,500 seat arena and high tech athletic training areas. The Aquatics Center features eight lanes, one meter and three meter diving boards, spectator seating and team rooms. The major expansion of the university's athletics and recreation facilities within the last decade was designed to complement the outdoor facilities that include a lighted multipurpose turf field, tennis courts, sand volleyball court, basketball courts and three grass fields.

Office of Information Technology

The Office of Information Technology (OIT) is responsible for providing technology and related support to the Marywood University campus. This central organization of all IT resources on campus is made up of five divisions: User Support Services, Application Services, Network & Systems Administration Services, Web Development, and Enterprise Resources.

User Support Services

User Support Services delivers help desk, academic computing and training support to the Marywood University community. Staff in User Support are based in the new, high-tech Learning Commons building.

Students can work collaboratively and practice class projects by signing out one of the many group study and/or presentation rooms in this building. Computers, laptop hook-ups, and large screen monitors are available for their use. Also spread throughout the building are other group and technology-friendly areas, with power outlets for a range of devices.

The help desk provides basic hardware, software, and network support. Contact them by phone, email, or in person at the Knowledge Bar on the main floor.

Academic Computing facilitates the integration of technology to improve the teaching and learning process. Our staff assists faculty and students in the use of technology for the creation, organization, analysis, and presentation of scholarly, scientific, and curricular resources. In courses using our learning management system (Moodle), syllabi, course information, chat, assignment, and test capabilities are all available online. Faculty can also use our course capture system (Panopto) to record class lectures and tutorials or stream courses live. Our new facilities in the Learning Commons include recording and production rooms for faculty and students to work on class projects. Academic Computing also provides large-format poster printing for faculty and students (fees apply).

One-on-one and group trainings are conducted by qualified User Support staff on applications such as Microsoft Office, Google Apps, SPSS, Moodle, and other specialized packages such as Colleague, Reporting and the MarywoodYOU Portal.

User Support also monitors the computer labs across campus, employing a supervisor and student lab assistants who troubleshoot basic problems and ensure the computers and printers are working properly.

Application Services

Application Services supports administrators and staff in management and student services, and gives ongoing technical support for effective data and process operations. This includes programming for the Colleague ERP system and auxiliary systems, customized report services and analytics and database operations and maintenance.

Network and System Administration

Marywood University is committed to providing high quality technology for its students, faculty and staff. The Marywood data infrastructure began in 1987 and continues to grow with added fiber optic

backbone, VOIP, data and CATV wiring, desktop and laptop computers, and mobile devices. The fiber backbone connects all major classroom, administrative buildings, and residence halls. Buildings are wired for telephony, data and video. Over 320 wireless access points are located through all campus buildings, including residence halls. The University has two divergent connections to the Internet providing over 2 GB of bandwidth.

Web Development

The Web Development Office manages the Marywood University website and associated sites and services. They are responsible for all functions related the University's web presence: policy, design, implementation, organization and maintenance. They train and support departmental content editors. The functioning of this office requires an array of skills that include programming, graphic design, web design, photography, and database management.

Enterprise Resources

The Enterprise Resources Office ensures the Ellucian ERP system and related technologies serve internal and external users, maintain and execute a structured enhancement plan, continually improve processes and provide access to timely and accurate reporting to aid in tactical and strategic planning.

Computer Labs

The Office of Information Technology maintains computer labs and drop-in areas in various buildings on campus. A 24/7 computing facility is located in our largest dormitory, Loughran Hall. Most labs contain Windows-based PCs with Macintosh computers in buildings housing the arts. All have a high-speed Internet connection, scanners, pay per page laser printing, and Microsoft Office, as well as a number of specialized programs as needed by various departments.

Peer-to-Peer Policy Statement

Marywood University prohibits Peer to Peer (P2P) network traffic from the campus network because of its widespread use in distributing illegal or copyrighted material. The Office of Information Technology reserves the right to remove any computer in question from the network entirely if it is found to be distributing or collecting illegal or copyrighted material, or using excessive amounts of network bandwidth to the detriment of other computers on the network.

Definitions

On the Internet, P2P is a type of transient Internet network that allows a group of computer users with the same networking program to connect with each other and directly access files from one another's hard drives. The files can include music, videos, photos, games and other files.

These P2P programs include, but are not limited to, BitTorrent, Limewire, Gnutella, Vuze, Ares and Ants. Marywood University blocks the use of peer-to-peer applications on all network segments. The use of these applications can expose considerable vulnerabilities. P2P networks have been used to distribute viruses, malware and corrupted or mislabeled files, a threat that can severely impact university operations and online academic research. Malware exposure is a primary staging platform for identity and electronic financial theft.

Marywood University expects that all computers and networks on the campus will be used in a manner consistent with the Conditions of Computer Use Policy and compliant with applicable law. Marywood University is under no obligation to protect a user from a complaint or action arising from violation, or alleged violation, of the law. Users should understand that the fact that material is available for free on the Internet does not mean that accessing such material is authorized by third party rights-holders.

Marywood University prohibits the download and distribution of any copyrighted material, such as music, video, photos and software. Disproportionate bandwidth usage and copyright infringement are violations of the University's Conditions of Computer Use Policy.
